• THE 25 MOST POPULAR “GW AGRICULTURE™” PRODUCTS FOR AGRICULTURE •

Winter – Spring Premix™ - Prepares your soil and plants for the Field Sprays. Recommended for all new applications.

Winter – Spring Ground Field Spray “A” - Encourages lush growth of the root, stem and leaf.

Winter – Spring Leaf Field Spray “B” - Encourages lush growth of the flower, fruit and seed.

Winter – Spring Booster Formula™ - Use Booster™ for heavy disease prevention.

Summer – Fall Premix™ - Prepares your soil and plants for the Field Sprays. Recommended for all new applications.

Summer – Fall Field Spray “C” - Encourages lush growth of the root, stem and leaf plant parts.

Summer – Fall Field Spray “D” - Encourages lush growth of the flower, fruit and seed plant parts.

Summer – Fall Booster Formula™ - Use Booster™ for heavy disease prevention.

Fungus Interruptus™ - The most remarkable and effective fungal preventive ever created. Interrupts and stops the growth of unwanted fungi and encourages the growth of beneficial fungi. Works instantly. Not a fungicide.

Fungus Eruptus™ for Mushrooms & Truffles - Helps mushrooms and truffles grow.

Nutrient Release Formula™ - When used with the general Field Sprays, laboratory tests by CSI show it instantly makes available an additional 5% (average) of soil nutrients to the crop.

Compost Invigorator™ - Lab tests show CI increases biologic activity in solid compost, compost tea and aerated compost tea. Helps the compost pile retain nitrogen and balances other essential plant nutrients.

Seed Starting & Transplant Formula™ - Reduces or eliminates transplant shock and improves seed germination rates. Apply Transplant Formula™ to all seed starts and transplants on and around the roots and on the soil at the time of planting. May be used to increase the size and volume of certain root crops.

Flowering Formula™ - For more flowers and fruit.

Frost Protection Formula™ - Protects plants from permanent frost damage down to 24° F.

Field Drying Formula 501™ - This remedy will dry out most fields or cut hay in 24 to 48 hours. Use with Fungus Interruptus™ to control snails and slugs. Together, the two stop black mold in buildings.

Enlargement Formula™ - Makes fruit and other plant parts to grow bigger.

Fruit Ripening Formula™ - Raises Brix 1 to 3 degrees in 10 days.

Root Ripening Formula™ (Early Season) - Raises Brix 1 to 3 degrees in about 10 day.

Root Ripening Formula™ (Late Season) - Raises Brix 1 to 3 degrees in about 10 days.

Dormancy Formula™ - Tricks plants into going dormant.

Pruning Formula™ - Quickly dries and speeds up healing of pruning cuts and limb wounds. Prevents the germination and spread of fungal spores to open cuts and wounds. Treats an entire acre of winegrape vines at 1% of the cost of hand application of fungicides. Works better, too.

White Fly Formula™ - Perfect for greenhouses. Rids plants of white flies.

Basalt Formula™ - Makes wood harder, tougher, stronger and healthier. Apply on soil around trees and on wood. Intensifies flavors before harvest.

Flavor Activators™ - Three formulas make all vegetables, fruit, nuts, meat, seafood, juice and wine taste better. Intensifies the entire palate. More fruit, structure, aromas and longer finish. Excellent for wine.
